Product parameter

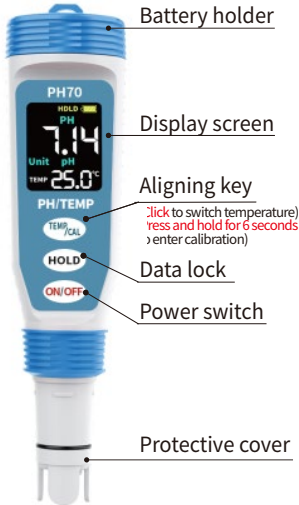

Feature	PH/TEMP
PH	Range :0-14pH Resolution: 0.01pH Accuracy :±0.05pH
TEMP	Range : 0~50°C/32~140F Accuracy :±1
Battery	600mAh (can be charged approximately 300 times)
Charging	Type-C(universal charging port)
Calibrate	Has been calibrated at the factory
Backlight	HD backlight display screen
Dimension	181*44*38mm
Weight	103g
Data lock	Automatic locking
Shutdown	8 minutes (automatic shutdown)
Warranty period	6 months

Charging operation

Instructions for use

PH WATER TESTER
